Owner(s) or Occupant(s) of Property on
Gould Street, Frank Street,
Berford Street and Brown Street

Dear Resident(s),

Re: Gould Street Sanitary Sewer Diversion Project

The Town of South Bruce Peninsula is planning on reconstructing the sanitary sewer system and performing road work on a section of Gould Street (north of Frank Street) and Frank Street from Gould Street to Brown Street. Harold Sutherland Construction Ltd. is the contractor and will be performing the work. Work is scheduled to start after the Labour Day long weekend, September 5, 2016. The deadline for completion is November 8, 2016. WSP Canada Inc. will be the contract administrator on this project.

The work will consist of excavating the existing road base, placing a new sanitary sewer pipe, widening the intersection at Berford and Frank Street, replacing sidewalks and curbs, and resurfacing the road surface. The contractor's plan is to start construction east of Berford Street as Stage 1, then move to the west side of Berford Street for Stage 2, and Stage 3 will be the work in the intersection of Berford Street and Frank Street. They plan to delay the intersection work as long as possible so as to have minimal disruption with traffic flow. One-way traffic will be permitted during actual construction times with construction crews directing traffic, as required.

A basic map of the construction area is included on the next page.

Should you have any questions, please feel free to contact our office.

Yours truly,

Dylan Stoneman
