Claude and Brown Street Reconstruction Sanitary Sewer, Watermain and Associated Work Construction Update Newsletter #2

September 17, 2014

The sanitary and storm sewers have now been replaced on Claude Street from just north of Frank Street to the intersection of Claude and William Street, including individual services. Road base reconstruction will start approximately the week of September 22, 2014.

The intersection of Frank and Claude Street will be closed September 17th and 18th for the installation of storm and sanitary sewer through the intersection. Frank Street will be closed from Berford Street to Brown Street for through traffic to complete this work. Claude Street will also be closed from George Street to Mary Street for through traffic.

Starting Monday, September 22nd, work is planned to proceed on Claude Street from Frank to Mary Street. This section of road will be open to 'Local Traffic Only'. The intersection at Claude Street and Mary Street may be closed starting Wednesday, September 24th through to the weekend. At that time, Mary Street will be closed from Frank Street to Brown Street for through traffic. Please note that the intersection at Claude Street and Mary Street will be completely blocked off and local residents are requested to access their homes from the appropriate end of the block.

A date has not been set for the construction on Brown Street to begin; an update on Brown Street construction will be provided in the near future.

Thank you to all of the people affected for your patience during this disruption.
