Owner or Occupant of Property
On Silver Lake Road

Dear Owner or Occupant,

Re: Reconstruction of Silver Lake Road

The Town of South Bruce Peninsula has retained a contractor, Harold Sutherland Construction operating as Walker Construction Grey-Bruce, to reconstruct Silver Lake Road from Bruce Road 10 to Allenford Road. The work will include culvert replacement, pulverization, and new asphalt paving.

The reconstruction work is expected to commence on May 1, 2023 and run for approximately four weeks. The road will be open to "local traffic only" for the majority of the construction period. The contractor will aim to keep lane closures to a minimum. There will be about a one-week period, while the bridge is being resurfaced, when the bridge will be fully closed day and night and residents will have to detour around the block to reach their residence.

A plan is in place should emergency services need to access the closure area.

To report a problem or for further information, please contact Gord Schultz, Operations Supervisor, at 519-534-1400 ext. 135.

Yours truly,

A handwritten signature in cursive script that reads "B. Collins".

Brianna Collins, P. Eng.
