

Construction Newsletter #2 – June 25, 2020

Berford Street Reconstruction and Streetscaping Improvement Project George Street to Division Street

What happened this week?

The Contractor, Bridge Excavating Ltd., has been busy flushing the sewer lines and conducting Closed-circuit TV video inspection of the storm and sanitary sewers to locate the connections from the mains to the buildings.

Utility locates have been ordered and completed; perhaps you've noticed all the colour lines on the pavement!

Bridge has also been preparing and installing additional water main valves on the side streets to facilitate the provision of temporary water services. Temporary water will be supplied to all properties within the construction zone as needed to ensure disruption to services is minimized.

Installation of fencing has also been completed to create separation between the pedestrian corridors and the worksite and to allow access to the businesses/buildings

What is happening next week?

Bridge will be completing a pre-condition survey of buildings within the affected area to ensure that the pre-construction condition is documented for everyone's protection in the event of a damage claim. It is recommended that if requested, you provide access to the interior of the building for this purpose.

Dye testing of storm and sanitary services for all structures within 50 m of the construction limits will be carried out as needed if further confirmation is required after the video inspections are completed.

Buildings between Division and William will be connected to the temporary water supply. The Public will notice 50mm diameter blue pipes along the pedestrian fencing, and some buildings will have lines connected to outside taps being fed from other buildings.

Major construction activity will begin at the intersection of Division and Berford Street for storm and sanitary sewer works.

Newsletters:

Future Newsletters will not be hand-delivered. For updates, please watch for notifications on the "Public Notices" page of the Town's website www.southbrucepeninsula.com or subscribe to receive updates on the Town's "Open Mic" public engagement platform <https://openmicsouthbrucepeninsula.ca>

Road Closures:

Berford Street is expected to be closed to vehicle traffic between William Street and Jenny Street starting June 30.

The Beer Store will be accessible from the north end of Warton only, as Division street will have limited access at times. Please use the detours provided and access Berford Street from Jenny Street/County Road 13.

Customer access to the businesses will be provided via side streets, rear parking lots and pedestrian access. If you require special accommodation, please contact the Business Owner or the Contractor's Public Relations Officer for current accessibility conditions.

Should you be a business owner and require accommodation for deliveries, please contact the Contractor's Public Relations Officer.

Access for emergency vehicles will be maintained at all times.

Who do I call if I have a question?

The Contractor has designated a "Public Relations Officer" (PRO) to respond to public enquiries related to this project. The PRO for this project is business owner Heather Gibbons. Heather is your first point of contact for concerns related to the construction or for personal or business-related accommodation needs.

R.J. Burnside & Associates Limited is administering the project on behalf of the Town. If you have any questions regarding the construction, you may also call a Burnside representative, between the hours of 8:00 A.M. to 5:00 P.M., Monday to Friday, and your call will be responded to as soon as possible.
